<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
CR 521 Hope Road Bridge over Lackawanna Cutoff	98309	98309

The existing Hope Road Bridge over the Lackawanna Cutoff will be rehabilitated and will carry southbound traffic. A new bridge to the east of the existing structure will be constructed to carry northbound traffic. Both structures will maintain the characteristics of the historic corridor. Hope Road will be realigned to improve sight distance adjacent to the two structures. The project will be bicycle/pedestrian compatible.

NJTPA	CON	BRIDGE-OFF		\$5,080,000			

<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
Warren County Sign Management	N0305	N0305

This project will include the collection of sign and panel information for approximately 10,000 traffic signs located on approximately 193 miles of county roadways. Initial work will include setup of the method of surveying the signs, storing the information, and software purchase. The inventory must include the reflectivity of the sign, location using GPS, and sign type. Additionally, the type of sign sheeting, sign backing and post must be inventoried. This project will also include training of county personnel by consultant to maintain the system.

<i>ROUTE/PROGRAM</i>	<i>Project ID No.</i>	<i>TIP No.</i>
57 Corridor Scenic Preservation	97062A	97062A

This is an innovative pilot program to restore, preserve and enhance scenic beauty and to preserve mobility in the Route 57 corridor from Route 22 to Route 182. Funding may be used to acquire landscape parcels, scenic easements, or farmland preservation easements on land abutting or within the viewshed of Route 57. This program will benefit Smart Growth in the corridor.

FY 2003-05 STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM

New Jersey Department of Transportation Projects

<i>ROUTE/PROGRAM</i>		<i>Project ID No.</i>	<i>TIP No.</i>
78	6J 6K, Truck Weigh Stations (eastbound and westbound)	860	860

Route I-78 eastbound and westbound, Truck Weigh Stations

This project, which is approximately 1.6 miles in length, will provide state-of-the-art truck weigh and inspection facilities on both the eastbound and westbound directions of I-78. The project's limits are approximately milepost 5.7 to 7.3 and the total acreage will be approximately 60 acres. Components of the project include weigh in motion scales, static scales, internal weigh station roadways, a control building on the eastbound side and a scale house on the westbound side. Commercial vehicle inspections buildings will be provided on both sides. The project will include significant roadway and structural improvements also. Acceleration and deceleration lanes will be provided in both direction for the weigh stations. The entire length of the project will be resurfaced in both directions using a noise reducing pavement. The New Village Road bridge over I-78 will be replaced and shifted to improved the alignment of New Village Road. The new bridge will be similar to the existing bridge as it will carry one 12 foot lane and a 1 foot shoulder in each direction and provide a sidewalk on one side, however it will be longer to accommodate the acceleration/deceleration lanes on I-78. The I-78 mainline structures over the Musconetcong River will be widened and re-decked to accept the acceleration/deceleration lanes and the inside shoulder will be brought up to standards. There are no design exceptions in this project.

This is a multi-year funded project under the provisions of Section 13 of P.L. 1995, c.108.
